The big steel freighter H. F. Morse, which was christened the Chancok, sailed today for Baltimore, where she will take on a cargo of grain and sail for an Italian port. She is commanded by Capt. Barlow and this is her first trip since being completed, and in fact is the first time she has left he yards of the Virginia Shipbuilding Corporation.

This ship was christened the Chancock by Miss Mary Dixon Palmer, daughter of Attorney General and Mrs. A. Mitchell Palmer. She glided from the ways Saturday afternoon August 9 in the presence of a distinguished company of guests.

The name Chancok was given the 9,400 ton steel vessel by the U. S. Shipping Board.

The Virginia Shipbuilding after purchasing this boat together with all of the other ships it is constructing changed the name to that of the H. F. Morse in honor of a son of Charles W. Morse, one of the owners of this company.

Plans have been completed for the launching of the freight Edwin A. Morse at the plant of the Virginia Shipbuilding Corporation which will take place at noon next Saturday. A large gathering of officials of the company and others are expected to witness the ceremony together with several thousand residents of the city.

The yards will be thrown open to the public.

WILSON HAS GOOD DAY

Showing Signs of Recovery,—Gland Swelling Does Not Recur Sunday

President Wilson finished up another good day yesterday evening, it was reported at the White House last night. Save for the regular visit of Drs. Grayson, Ruffin and Stitt, there was no other activity at the White House yesterday, and the President was said to be resting comfortably.

The noon bulletin from the physicians had this to say:

"There is no material change in the President's condition. He slept well during the night."

There was no recurrence yesterday of the protatic gland swelling and the gain made by the President yesterday was understood to have been repeated, Saturday was the best day he has had since he was taken sick more than three weeks ago, according to Dr. Grayson, his personal physician.

The President was able to take abundant nourishment and was quite cheerful yesterday morning when the doctors saw him. He seemed better physically also, and the long restful slumber of Saturday night had evidently acted on him like a tonic.

Dr. Hugh H. Young, Baltimore specialist, who was called in when the gland troubled the President, is expected to return to the White House several times during the coming week. His visits will be made simply as a precautionary measure for all the physicians attending the President are agreed that an operation is unnecessary at this time.

BELGIUM LIFTS BAN

Brussels, Oct. 20.—Treasury receipts for the first seven months of 1919 exceeded government estimates by more than ten million francs, the total receipts being 421,000,000 francs.

Further steps to free trade have been taken by the government in the abolishing of the rule requiring certificates of origin for all automobiles, foodstuffs and cutlery imported.

Licenses formerly required for the importation of products of German origin have been suspended. The decree lifting these restrictions explains that the action was taken in response to demands of merchants who were sufering a disadvantage by being compelled to buy in countries where the rate of exchange was more unfavorable to Belgium than the German rate. Cognizance also was taken of the fact that the Germans are in position to make quick deliveries and are offering favorable terms of payment.

Reconstruction of railroads in Belgium has progressed to the point where trains now are circulating over the entire railroad system. Eleven hundred kilometres of double track had been destroyed up to the time of the armistice and 400 partially destroyed. The freight tonnage being transported is now sixty per cent of that transported in 1914, despite the fact that rolling stock has been reduced by about fifty per cent.

Martin, dressed in a light-colored suit, had bent over to pick a wild flower. Bunce saw what appeared to be a four-legged animal, fired, and Martin fell over dead.

SUNDAY SCHOOLS HAVE BIG PARADE

Total of 2,091 In Line of March Yesterday Afternoon

ALL AGES IN LINE

Song Fest Follows In Christ Church Yard—Movie Man Gets Pictures of Participants.

With ideal weather conditions prevailing 2,091 Sunday School scholars yesterday afternoon participated in the Sunday School parade. Thousands of persons lined the streets and watched the passing pageant. The parade was marshaled by Elliott F. Hoffman Each of the ten Sunday Schools participating wore a distinctive color and each represented a Commandment. Banners and mottoes were carried by each school, each bearing a quotation from the Bible. The pastors of the different churches taking part and the superintendents of the Sunday Schools accompanied each.

While the executive committee in charge did not give out the figures of each Sunday School, the Methodist Episcopal South and the First Baptist carried the largest number.

In the parade were men and women bent with old age down to the cradle department.

The Methodist Episcopal South was the last Sunday School in line of march and all of its members held on to a rope which was attached to a wagon bearing the "Beginners' Department" In this wagon were babies and they attracted much attention all along the line of march.

The parade was headed by a squad of policemen after which came the church and United States flags, the chief marshal and his aides. The Camp Humphreys Band followed by the Sunday Schools in their respective order.

All of the participants made an excellent showing and were congratulated on the excellent turnout.

Immediately following the parade a song fest was held in Christ Church yard. In the yard movies were taken and they also were taken of the paraders as they marched. The movies were taken by Y. M. C. A. representatives and will be first shown in Alexandria and later in the different cities in the state. The "sing" was led by E. B. Chamberlain, of the state Y. M. C. A.

The songs given included "Nearer, My God to Thee,' "Brighten the Corner Where You Are," "True, Hearted-Whole Hearted," "Onward, Christian Soldiers," "God Be With You," "Stand up For Jesus", "Dwelling in Beulah Land." "America" and "How Firm a Foundation."

YESTERDAY'S PARADE

The Sunday school parade yesterday afternoon was a great event for young and old in Alexandria. Apart from the "crailie roll," the great mass of boys, girls, men and women who attend Sunday schools were in line, all realizing that it was good for them to be in the turnout. The weather was all that could be desired and there were no hitches or miscalculations in any feature of the program.

The marchers embraced persons of all stations in life. A large number of men, some who are approaching the three score and ten mile post, were in line. They posed as Sunday School scholars and enthused the souls of the younger generation, who have just begun the battle of life. The "patriarchs" in the procession probably had these words brought to their minds while mingling with the young and and innocent: "Unless we become as these little ones ye cannot enter the kingdom of heaven."

Some persons who unconcernedly watch those who are endeavoring to fight the good fight of faith had uncomplimentary reflections to make of some wavering souls in the line who they regard as spiritual cripples who at times make trips and occasionally fall. The truth should have come to them that "they who are whole have no need of a physician."

A preacher in a pulpit in Philadelphia yesterday said: "God does not pass through the crowd looking for angels. He does not want us to be angels. But he expects to find true manhood and true womanhood, according to the type that He gave the world when He sent the Holy One of Israel among us

GOSPEL IN SHIPYARDS

When John and Charles Wesley began their move in London they visited the shipyards, foundries, etc., where they found thousands of men ready to listen to the gospel The Wesleys used barels, boxes, piles of pigiron or lumber—in fact anything forming an elevation—while appealing to their hearers. They insisted that the workmen remain in their overalls or griny aprons. Methodism was bought to the birth by these sincere heralds of the gospel.

Shipyards at Newport News are being used as quarries by preachers.

Four thousand men were spoken to Friday in the shipyard campaign in connection with the Baptist revival now being conducted in all the Baptist churhes of Newport News, and meetings were held in the main office, the southside store and in other places in the yard.

Next week, it has been announced, the Methodists, who will begin a revival of their own, will co-operate with the Baptists in conducting the services in the shipyard, and many features are being planned for this event

The shipyard campaign is resulting very sucessful, according to the campaigners, and they are much encouraged at the attitude taken by the men of the yard in regard to the revival services.

PRACTICAL LABOR UNION

"Can any good thing come out of Nazareth?" was the query when the Holy One of Israel emerged from the northern section of Palestine and started His work of astonishing the world by His words and acts. At present there is a universal conviction that no good thing can ome out of Germany. We reserve our opinion and will wait and see if the people of the Fatherland will bring forth fruits meek for repentance.

A new kind of labor union has been formed in Helmstadt, a village near Magdeburg, which puts forward as a principle that every German should engage in some occupation involving bodily labor when the general welfare demands it. Unemployed clerks and bookkeepers and some students are to enter the coal and potash mines or become farm hands. A number of them have already left Magdeburg, under the guidance of a trained officer, for labor in the mines near there.

This movement is the outcome of common sense. If every able bodied man acquired a trade more satisfactory conditions would follow. A curb would be placed upon strikes were it realized that instead of universal military training compulsory industrial training had brought forth a nation of mechanics.

In the days when the offspring of Abraham had a country of their own, universal training on industrial lines was obligatroy upon every Israelite, no matter to what exalted station he might have been born. Hence we read that the Author of the Christian religion was a technics, believed to mean a carpenter. Saul of Tarsus, we know, was a tentmaker, and he worked at this occupation in the house of Aquila and Priscilla in Corinth.

MISUNDERSTOOD DEMOCRACY

It is just about time that less should be said about "democracy." When President Wilson was clicking typewriters when he should have been clicking machine guns, he made famous the term "making the world safe for democracy." He visited through European countries leaving a trail of fine cut sentences about "democray" behind him. He was not understood. The masses get the notion that "democracy" meant rule by the mobs, and every socialist and anarchist abroad sang his praises until they discovered their error. In the name of "democracy" the Reds of Russia established a dictatorship and robbed and plundered. In the name of "democracy" Bolshevists marched the streets of Berlin and other foreign capitals.

President Wilson never meant that sort of thing at all. He was preaching an end to autocracy with the establishment of a republican form of government. He wanted the people to have a voice in their government, but he did not intend that they themselves should be the government. But that is precisely what 'democracy" means. The word was badly chosen. It has come to be regarded as a synonym for anarchy. The rule of "democray" is nothing more nor less than the rule of the mobs, and mob rule is even more dangerous than Kaiserism and Czarism. The dictatorship of the Bolshevist "democracy" is autocracy of the worst type.

We like to think here in the United States that we have about the best form of government known to the world. In 1778 our Constitution was adopted, the greatest instrument of the ages. Since then this Nation has grown into the enormous giant that it is. But the United States is not a "democracy." It is a republic. Our form of government is representative. The people do not rule as a people. They elect representatives to act for them. If these representatives are unsatisfactoy, the way is clear to depose them at the next election.

The Reds, the I. W. W.'s and the Anrchists who are fomenting strife in the United States prate about "democracy." The Bolshevist sort is what they have in mind. So the less we talk about "democracy" the better we will be off. This country is founded on and believes in the representative system that composes a republic. What the world needs is to be made safe for republicanism, not for "democracy."

Genoa, Oct. 20.—The liner America has just arrived here from New York after a narrow escape.

BOY BANDITS KILL ONE

Wounded Yank, Strung Up in Tennessee, Gives Mob Pal's Name

Chattanooga, Tenn., Oct. 20.—When indignant citizens of James county put a rope around the neck of James Oliver, wounded, alleged boy robber, and strung him up to the limb of a tree near Ooltewah shortly after midnight Saturday night, he broke down and told them the name of his companion who, he said, shot and killed Deputy Sheriff W. B. McIntosh a few hours earlier.

Oliver, who is not yet 21 and Ed Martin, who is charged with killing McIntosh, are said to have barricaded a point on the Dixie highway just south of Ooltewah shortly after dark Saturday night and held it until nearly midnight, while they held up and robbed occupants of all automobiles and other vehicles that passed.

Citizens who heard of their activities and went, armed with pistols and shot guns, to arrest them, were themselves captured by the boy bandits, and at one time six men and one woman were huddled along the roadside, covered with the pistol of one robber, while the other waited behind his barricade for other vehicles to bring fresh victims. This was after McIntosh had been shot and for some his body lay by the side of his automobile, his friends not knowing whether he was dead or alive. They know that he lived for a few minutes after he was shot, but the bandits would not permit them to attend to his injuries and they do not know when he died.

But for the wound that Oliver received from the pistol of K. L. Johnson, who accompanied McIntosh to the barricaded spot on the road, the "road agents" might have stayed on until daylight. Oliver kept complaining that he was bleeding to death, and his companion finally ordered his victims to take the boy back to Ooltewah, where a physician could attend to him. When they started the other bandit slipped away in the darkness.

Martin and Oliver were both recently discharged from the army. Posses accompanied by bloodhounds, are scouring the hills of James county for Martin. Oliver has been brought to the jail in Chattanooga for safekeeping.

FACES ANOTHER CRISIS

Employers Group Insists On Amending Collective Bargaining Resolution.

Solution of the difficulties seriously threatening the life of the National Industrial Conference seemed more hopeless than ever last night, after the conference's central committee in a three-hour session failed to conciliate the differences, between the labor and employer wings.

The tentative agreement reached late Saturday on the vital question of collective bargaining was shattered at committee meeting today when the employers group insisted on adding to the substitute resolution a clause declaring for the right of "employers and employes to bargain individually." This clause was rejected unqualifiedly by the labor delegates.

STRIKE MARKS TIME

Steel Situation is Practically At Stand still—Part of U. S. Troops Leave Gary, Ind.

Pittsburgh, Oct. 20.—The steel workers' strike in the Pittsburgh district was practically at a standstill yesterday, the only development of importance being a joint meeting of the Pittsburgh Central Labor Union and the Pittsburgh Building Trades Council with representatives of the railroad brotherhoods.

Strike headquarters here remained closed for the most part of the day and those union leaders who talked with newspaper men had nothing to say relative to the strikers side of the controversy.

The day was quiet throughout the entire district.

Gary, Ind., Oct. 20.—Part of the Federal troops were withdrawn from Gary yesterday. The situation is fully under control. it was declared.

The steel mills along the north shore are reporting a steady increase in the number of men returning to work. It is estimated that the steel plants in the Chicago district are now operating on a 75 per cent. basis although the labor leaders contend the figures of the company officials are high.

SUGAR BAN TO GO BACK

New York, Oct. 18.—War time sugar restrictions until January 1 are practically inevitable in New York and throughout the northeastern section of the country, according to a statement issued by Henry E. Costello, chairman of the raw sugar division of the United States Sugar Equalization Board. Costello said there are hand now only 25,000 tons of sugar in the northeastern States as against a normal supply of 750,000 tons.

TO HALT RED MENACE

Restricted Immigration And Deportation The Means To Meet Unrest

The Americanization of the alien workers in this country and the deportation of all those who refuse to take out citizenship papers is regarded in Washington as the one concrete thing which must be done toward the solution of the gravest industrial problems which the nation has faced.

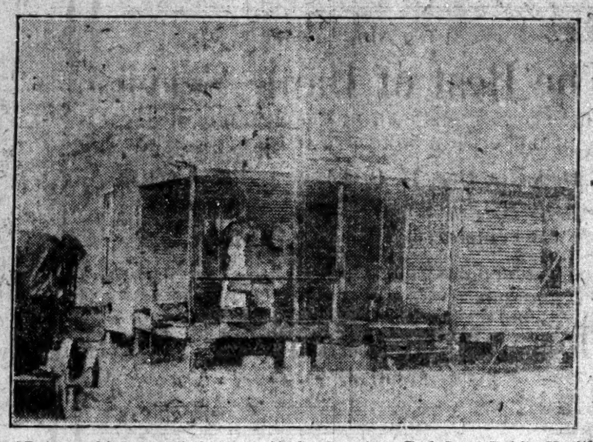
And that Congress is moving slowly, but with grim determination, in that direction is indicated by measure after measure, pending or proposed, which would bar the undesirable alien from our shores on the one hand and which would send back those already arrived who are actual or potential enemies, on the other.

There is the bill, now halfway through Congress, which extends for a year the wartime passport restrictions against the multitude of dangerous aliens waiting on the other side for their opportunity to slip through the barriers. There is the bill requiring every alien now on American soil to register at once with the Government and providing that those who fail to register and who may be discovered be deported summarily. Another would deport all those who claimed military exemption because of nationality.

RED CROSS VISITING NURSE ON HER ROUNDS IN THE MOUTTAINS

By helping the Red Cross Membership Roll Call, which will begin November 2 and end November 11, Armistice Day, the American public will be purchasing community health insurance in one sense. It is the desire of the American Red Cross eventually to place specially trained public health nurses in many districts where there is a crying need for them. Sanitation, home care of the sick, and epidemic work are among the many duties of these capable and kindly women. Enroll now as a worker at the local Red Cross Headquarters.

IN FAIR WEATHER AND FOUL



Rain or shine are all the same to the American Red Cross Public Health Nurse, who makes her rounds of the homes of the needy in whatever kind of weather and unmindful of discomfort or even danger. In this case the nurse is lucky enough to have a car but she would have made her visit just the same if she had to walk through the downpour. Enroll now as a worker at local Red Cross Headquarters for the Third Red Cross Roll Call, November 2-11.

ANTI-REDS PRESS ON

London, Oct. 20.—The march on Petrograd from Krasnaya Selo continues, according to a despatch from Helsingfors. The Bolsheviki declare they will defend Petrograd.

The situation looks less favorable for the anti-Bolshevist forces. It develops that large Red forces are on the right of Gen. Yudenitch's army which is thus threatened in the flank, and 10,000 Bolshevist troops are concentrated in the former capital itself.

Despatches continue, however, to speak of "the fall of Petrograd," as being 'a matter of hours." Troops of the North Russian army are reported to have captured the important harbor town of Reval Friday, taking large [illegible] of ammunition. This army [illegible] miles [illegible] Petrograd. One [illegible] delegates [illegible] the workmen of Petrograd told G[illegible] Yudenitch the city was ready to surrender if assured food supply. They begged him not to bombard the city, the story has it, and he promised to heed their request if the workmen carried out their undertaking.

All those despatches are taken with considerable skepticism here. The real situation continues to be veiled in obscurity.

GRAND DUKE NICHOLAS ALIVE

Former Army Commander Said to be Living at Prinkipo.

London, Oct. 20.—Grand Duke Nicholas Nicholaevitch, former commander in chief of the Russian army, has been living on Prinkipo Island, in the sea of Marmora, lying between European and Asiatic Turkey, since last February, according to private advices received here from Constantinople. With the grand duke are his wife, the grand duchess Anastasia, and her father, the king of Montenegro.

Since the revolution in Russia and the overthrow of the dynasty the whereabouts of Grand Duke Nicholas has been problematical. He has been at one time or another reported dead, in captivity of the bolsheviki, and residing in various places incognito. It will be recalled that Prinkipo Island was chosen by the entente powers as the site of a proposed conference with the bolsheviki.

RAILROAD POLICY

Assures Net Return of 5 1-2 Per Cent on Actual Value to Owners

After adopting provisions to end railroad strikes by penalizing employees who go on strike or others who foment strikes, the Senate Interstate Commerce Committee Saturday completed the draft of a bill to establish a permanent railroad policy, Government control and operation of the roads would end thirty days after enactment of the measure.

Provision was made for the establishment of a Federal commission on wages and working conditions. This commission would have a number of subordinate, regional committees for prompt settlement of local disputes.

POLICEMEN USES GUN

Negro Shoots and Wounds Negro Prisoner Advancing to Attack Him

Petersburg, Va., Oct. 20.—Police Officer James Williams Friday night at a late hour shot and wounded William Mitchell, a negro, whom he had arrested in Colliers Alley for disorderly conduct. While the officer was telephoning to the police station for the patrol wagon, Mitchell is said to have jerked away from the officer and to have attempted to draw an open pocket knife from his pocket. Notwithstanding a warning by the officer, the negro advanced upon him and was shot. The ball struck Mitchell in the breast and lodged in the lung. The negro then turned and ran at full speed for some distance before he fell. Mitchell was taken to the hospital.

MASKED MEN ROB BANK

Get Bonds and Stamps, But Fail to Crack Big Vault

Bargersville, Ind., Oct. 20.—Three masked robbers Saturday bound and gagged the night watchman of the Farmers' State Bank here and escaped in an automobile with approximately $15,000 in Liberty bonds, war saving stamps and gravel road bonds.

The bonds and stamps were taken from safety deposit boxes, the robbers failing in their efforts to open the big vault. Only 30 cents in cash was taken. The men went at their work deliberately, staying in the bank nearly two hours, according to Good Surface, the night watchman.

J. C. Sanders is cashier of the bank.

THEATRES

RICHMOND THEATRE

"The Turn in the Road," at the Richmond Theatre tonight, is a beautiful story beautifully told. The theme is one that is as old as the world and as universal as man, carrying a message of love, pathos and human emotion that makes the production one of absorbing human interest.

Paul Perry, son of a money mad father, married the lovely daughter of a minister of the orthodox religion. When his wife dies Paul lost faith in the "God to Whom the will of man should meekly bow" as he had been taught, and became a wanderer.

He went in quest of the true God, but sank to the depths of degradation in his search. After many years of unavailing search he returned to his old home to learn from the lips of his own child the truths the world could not teach him.

Into the story is woven the self-sacrifice and unfailing love of a girl—his dead wife's sister—who had devoted her life to the care of his little boy and taught him that "God is love."

INGOMAR THEATRE

The feature at the Ingomar Theatre today will be the new World Picture, "Miss Crusoe," starring Virginia Hammond. This is an exciting story of two women who go to spend a quiet vacation on a deserted island in the Chesapeake Bay and stumble on a nest of crooks. What follows is filled with thrills as well as some very good comedy situations. "Miss Crusoe" is a picture that on lover of film drama should miss.

Chapter 10 of "The Great Gamble" will also be shown.

WOMEN BARRED FROM JOBS.

Women were barred from 60 per cent of the government positions for which examinations were held in the first half of this year, according to a report made public yesterday by the Woman's Bureau of the Department of Labor. More than 260 types of positions were covered in the examinations, and in addition [illegible] per cent permitted to compete for 16 per cent of the clerical positions.

The full report will be completed in several weeks, according to Miss Mary Anderson, director of the Woman's Bureau. It covers investigations which have been in progress for more than a month, in response to a request by the Federal Employes at their recent convention in San Francisco that a study be made of all conditions of employment of women in the Federal service. The second section of the report will consist of an analysis of the salary scale of women in the government service, the requirements of the positions they fill, and the specific inequalities in the pay they receive.

The complete report will be given to the reclassification commission and is expected to bring about certain reforms which will better the working conditions and salaries of women employees.
